

## Post 16 Options/Courses

We support students making applications for a wide range of school sixth forms, colleges and apprenticeships across London. Students go on to many different post-16 destinations that reflect their interests and aspirations, including Woodhouse College, London Academy of Excellence, Camden School for Girls, Le SWAP and many others. A number of students choose a vocational route and access high quality apprenticeships and opportunities at institutions such as the London Screen Academy and the London College of Fashion. Many institutions visit EGA to deliver sample lessons and speak to students about the opportunities they have on offer.

All students are supported through the post 16 transition process through information, advice and guidance interviews with their tutor and/or our Careers Lead.
