

EGA SCHOOL DEVELOPMENT PLAN

2018 – 2020

A quick guide for parents

During the next three years we are focusing on the following priorities:-

- 1.** To continue to raise achievement, through a rich broad curriculum, to ensure that outcomes show outstanding progress and students are fully prepared for the increasing demands of public exams, the world of work and have the foundations for lifelong learning.
- 2.** To further develop teaching and learning to promote consistently outstanding classroom practice
- 3.** To implement and embed new pastoral systems and structures which will support student well-being and their ability to manage themselves in complex and diverse situations
- 4.** To promote positive attitudes and habits to develop resilience, leadership, digital engagement and independence
- 5.** To actively plan for succession to support the continuing development of staff to ensure that staff changes do not destabilise the school and to be the school employer of choice
- 6.** To explore and develop existing and potential partnerships, including those with parents, to ensure EGA continues to flourish as an outstanding school at the centre of the community
