

Home Learning: Foundation Learning

Students in Foundation Learning will have access to work on Show My Homework. Students should check this daily , as new tasks will be added regularly. These will include, Mathematics, English and Science.

For Year 11 pupils in Foundation Learning who are taking Food and Nutrition GCSE there will be additional activities for you to complete.

In addition pupils already have a copy of their current BTEC Assignment for their vocational course e.g. BTEC Caring for Children Level 1 or Asdan Life Skills Challenge Awards. They know the module they are working on.

If students have a Lexia or Nessy log in, they should use this daily.

Also all students should use BBC Bitesize regularly to review their Maths skills and Science knowledge.
