

Home Learning: Maths

It is important to continue working hard in maths up to the exam. You know your strengths and weaknesses so it is important that you continue to practise your maths skills to:

- a) Improve your memory of key ideas
- b) Practise exam skills so that you work at a reasonable speed accurately
- c) Learn a few new skills to get further into the paper
- d) ADVICE: don't just practise the bits you enjoy: close the gaps (especially near in the first half of the paper.)

There is a Google Classroom for the whole of year 11. Join it if you have not done so already. There are exam papers and other resources.

CODE: 7vj21p4

Your teacher may have created a Google Classroom just for your class. Make sure you join. These will allow us to share work, answers and advice and will provide a forum for you to help each other too.

- <https://vle.mathswatch.co.uk/vle/> is a very useful resource if working at home as it gives you instant feedback and if you are stuck you can watch the video. Make sure you know your USERNAME. We have reset the passwords to: **triangle**.
- www.mymaths.co.uk is another resource that will provide you with support for particular topics. General login: egas, password: triangle
- <https://corbettmaths.com/> is an excellent resource where there is a lot of worksheets on all topics including answers and other practice materials
- <https://www.mathsgenie.co.uk/gcse.html> has more great resources and tuition like mathswatch
- <https://justmaths.co.uk/2015/12/21/9-1-exam-questions-by-topic-higher-tier/> and <https://justmaths.co.uk/2015/11/29/9-1-exam-questions-by-topic-foundation-version-2/> provide great sets of questions particularly helpful if you want a challenge. Answers are worked so that you can learn from them what to do.
- Youtube has walking talking mocks to take you through a paper
