

Home Learning Guide: KS3 Science

The following resources are available for you to support you in your learning at home.

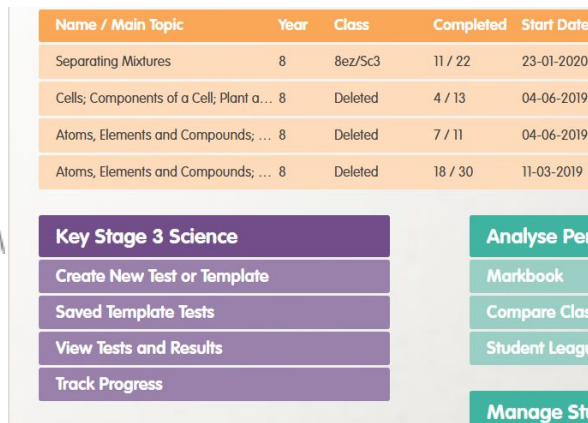

1. Kerboodle

All of you should have a login for kerboodle. If you have forgotten your login, then email Mr Viswanathan asking for a reminder. Emails are at the bottom of this page. On kerboodle, there are online digital textbooks, worksheets and tests you can try. It's the Activate icon you need to click on.

2. Educake

All of you should have an Educake login. If you have forgotten it, then email Mr Viswanathan or Ms Rossouw at the addresses below. We will reply with the details. All of you can set yourself questions to do to practice retrieval of key information.

A screenshot of the Educake interface. It features a table with columns for 'Name / Main Topic', 'Year', 'Class', 'Completed', and 'Start Date'. Below the table are several buttons for navigation and management, such as 'Key Stage 3 Science', 'Create New Test or Template', 'View Tests and Results', and 'Track Progress'.

Atoms, Elements and Compounds; ...	8	Deleted	7 / 11	04-06-2019
Atoms, Elements and Compounds; ...	8	Deleted	18 / 30	11-03-2019

3. Google Classroom

This is where your teachers will communicate with you and set you work to do. They may ask you to:

- Read through a chapter from the Activate 1 or 2 digital textbook and try the questions and the end.
- Complete the Educake questions set and repeat the same test until you achieve 80%. You should copy down any question they get incorrect or only guessed, and the answer.
- Create a mindmap of a topic
- Look through powerpoints and complete any worksheet sent to you
- Watch a video that will help you understand a concept
