

Home learning: Dance

Students have access to the Google Classroom GCSE Dance 2019/20 group class code hq2h3sd. Students should check this classroom regularly as the folders are live and will be updated regularly.

This online classroom is organised into three areas

- Choreography coursework
- Anthology works
- Written exam revision

Students can access materials to watch, revise and organise their knowledge and understanding of the six prescribed anthology professional dance works. I will be adding quizz materials for each of the separate works for revision purposes.

The choreography summary proforma, which supports students practical choreography coursework, is also on this classroom. An example of good practice is accessible to support students writing and submission of this coursework. I have instructed students on how to use these materials and that they should email me a draft of their summary.

The written exam revision material consists of 2 full mock papers and a breakdown of support for answering 6 mark questions. This is the folder which will be most active, as I will upload different revision and mock paper materials to it to support home learning.

Students should still also access SMH. There are quizzes on here that they can re- do to track progress related to TEMP performance skills and choreography knowledge. Students should retry these quizzes for memory.
